United Kingdom

Ref: GSO3

Student No.: 783229

10 April 2019

Dear Miss Lledo Lara,

I am writing to confirm that your application for the appointment of examiners has been approved. Your application will now be forwarded to the Examination Schools who will issue formal invitations to the examiners. **Please note that your thesis will not be despatched until both examiners have formally accepted the invitation.**

The Examination Schools will send you written confirmation of the names of your examiners and the date your thesis was despatched. Your internal examiner will then contact you directly to confirm the arrangements for the viva, if required. You are not permitted to contact the examiners other than to respond to a request to confirm your availability for the viva. Any email communications from the Examination Schools relating to the examination of your thesis will be directed to your primary email, as indicated on Student Self Service. Please log in at www.evision.ox.ac.uk/ to check or amend your contact details.

Please note that, if you applied for an Early Examination, the Examination Schools will make every effort to accommodate this request. However, please bear in mind that the examination date requested must not be earlier than one calendar month after the date on which the thesis has been received at the Examination Schools **or** after the date on which the examiners have formally agreed to act, whichever is the latest. The actual date of the examination will depend primarily on the availability of both examiners.

Please note that Examination Schools will notify you of the official outcome of your viva by letter. It is recommended that you submit the final copy of your thesis **only** on receipt of a letter confirming an award. If you have any questions regarding this, please contact me in the first instance.

Any other queries regarding the examination process may be directed to ResearchDegrees@admin.ox.ac.uk or 01865 286384 / 01865 286382.

Yours sincerely,

A handwritten signature in cursive script, appearing to read 'Claire Oerton'.
